8. Ballot delivery and processing:

The Designated Election Official will supervise the distribution and handling of the ballots and will take the necessary steps to protect the confidentiality of the

ballots cast and the integrity of the election. The Designated Election Official shall appoint a sufficient number of election judges to distribute, handle and count the ballots. The election judges will also take the necessary steps to protect the confidentiality of the ballots cast and the integrity of the election.

All deposited ballots will be counted as provided by the Election Laws. A mail ballot will be valid and counted only if it is returned in the return envelope, the self-affirmation on the return envelope is signed and completed by the eligible elector to whom the ballot was issued and the information on the return envelope is verified.

If the Designated Election Official or an election judge determines that an eligible elector to whom a replacement ballot has been issued has voted more than once, the first ballot returned by the elector will be considered the elector's official ballot. Any other ballot will be rejected.

Ballot envelopes will be directly deposited into the locked ballot box. The ballot box will remain locked until after 7pm on Election Day, May 3rd.

9. Description of procedures to be used to ensure ballot security at all stages of the process:

The Ballots or ballot labels will contain the warning set forth in Section 1-13.5-1105(4)(b). The return envelopes will contain the self-affirmation set forth in Section 1-13.5-605(1). The return envelope will have a flap covering the signature of the eligible elector. To protect the elector's privacy, the District will include a secrecy sleeve, with voting instructions, in the mail ballot packet.

When not being processed, ballots packets will be placed in a safe, secure area under the supervision of the Designated Election Official, election judge or person designated by the Designated Election Official. Ballots will not be left unattended while being processed. After processing is complete, ballots will be placed in a safe and secure area. Access to the secure area shall be determined by the Designated Election Official.

A replacement ballot may be requested if the ballot was destroyed, spoiled, lost or not received by the elector. An elector may obtain a ballot if a mail ballot packet was not sent to the elector because the eligibility of the elector could not be determined at the time the mail ballot packets were mailed. The elector requesting the new or replacement ballot must complete a sworn statement specifying the reason for requesting the ballot. A mail ballot packet will not be issued or transmitted to the elector unless a sworn statement requesting the ballot is received on or before the Election.

10. Counting of the mail ballots:

The election judges shall receive and prepare the mail ballots for counting. The counting will begin on Election Day after the polls have closed at 7pm. The election judges shall take all precautions necessary to ensure the secrecy of the counting procedures. No information concerning the count shall be released by the election judges or any watchers until after 7:00 p.m. on the day of Election. Section 1-13.5-1107, C.R.S.
